

### REMARKS

Applicants have carefully reviewed and amended the specification, with special attention to the point raised in the Notice of Drawing Inconsistency with Specification dated January 11, 2008. Initially, Applicants wish to thank the Office of Patent Publication/Publishing Division for pointing out the inconsistencies. As required by the Notice, a designation for Figure 12C has been added to the specification. Applicants submit that no new matter has been added, and that this drawing was previously presented. Accordingly, Applicants respectfully submit that a further search and/or consideration should not be required and that this Application is ready for issuance.

Applicants' undersigned attorney may be reached in our New York Office by telephone at (212) 218-2100. All correspondence should continue to be directed to our address listed below.

Respectfully submitted,
